I. PURPOSE

The purpose of this RFP is to solicit proposals from qualified offerors to provide annual professional mechanical, electrical, and plumbing (MEP) engineering services, as needed, directly to NNPS on an as-needed basis throughout the term of the contract.

II. BACKGROUND

Based on the Commonwealth of Virginia Department of Education's (DOE), NNPS is the ninth largest school division in the Commonwealth with approximately 28,860 students. NNPS is an urban school system educating children in 5 early childhood centers, 24 elementary schools, 8 middle schools, and 6 high schools. A listing of NNPS facilities and its locations may be accessed via NNPS' official web site at <http://sbo.nm.k12.va.us/schools>. NNPS employees approximately 5,000 employees in a variety of educational, managerial, professional, technical, clerical, service and maintenance positions. Newport News Public Schools is located within the co-terminus boundaries of the City of Newport News, Virginia. The city is approximately 24 miles long and 3 miles wide encompassing an area of 69.2 square miles.

NNPS seeks to establish a term contract for professional architectural and engineering services. Selection of contractors will be made in accordance with the Code of Virginia §2.2-4302.2. This RFP requests the Offeror provide its technical capabilities for accomplishing the A/E services required for NNPS for MEP disciplines. Offeror shall not provide estimates of man-hours to perform the requested services or the cost of the services to be provided, with its proposal. However, during discussions with Offerors determined to be qualified and responsive to the RFP, NNPS may discuss nonbinding estimates of total project costs or nonbinding estimates for the price of services to be rendered. All submitting firms shall be registered and licensed by the Virginia Department of Professional and Occupational Regulations (DPOR).

At the conclusion of discussions, NNPS will select, in the order of preference, only those Offerors whose professional qualifications and proposed methodologies for providing service is deemed most meritorious, to provide a Pricing Proposal, based on the evaluation of technical proposals, beginning with the Offeror determined to be the most qualified of all Offerors. Upon NNPS' request, the Offeror selected should provide a Price Proposal that clearly identifies any and all costs associated with performing the Tasks in Section III, "Statement of Needs", below.

However, should NNPS establish that the pricing of the most qualified Offeror(s) is acceptable, NNPS will award to those Offeror(s). Notwithstanding, NNPS may determine that only one (1) Offeror is fully qualified or is clearly more qualified and suitable, in terms of professional competence, than the others under consideration and reserves the right to award a contract to only that one (1) most qualified Offeror without further discussions or deliberations with any other Offeror. After selection of the qualified Offeror(s) is made, the pricing for this contract must be in a format that specifies the categories of labor to be used on any given project, the hourly burdened rate to be used for each category of labor, and any other costs and fees charged for, what the Contractor considers to be, general or specialized projects.

The Estimated Unit Prices offered and accepted will be Firm-Fixed for the duration of the Contract Term, and any renewal option periods exercised, and shall not be exceeded due to cost experience of the Contractor in performing the contract. Selected qualified Offerors may propose adjusted pricing for each subsequent renewal period. These prices, as well, will be Firm-Fixed Ceiling prices for the duration of the renewal period proposed.

The resulting term contract shall be for one (1) year, or when the cumulative total project fees reach the maximum cost authorized, whichever occurs first with three (3) renewable contract term options at NNPS' discretion. The sum of all projects performed in a contract term shall not exceed \$10 million, and the fee for any single project shall not exceed \$2.5 million. Any unused amounts from one contract term shall not be carried forward to any additional term.

III. STATEMENT OF NEEDS

Contractor will be required to provide design and engineering services at various NNPS school buildings on an as-needed basis, as requested by NNPS during the term of the contract.

NNPS may require the following:

- G.** Engineer will assist NNPS in the purchasing of design construction during the solicitation and evaluation phases of construction bids and will provide clarifications to specifications and drawings posed by NNPS or potential bidders, as needed. Engineer will also be responsible for attending all NNPS Pre-proposal / prebid conferences where Engineer's project(s) will be part of the discussions.

requirements, with the concurrence of the NNPS Contract Administrator for the project.

- J.** The Engineer will provide construction administration of its projects and will be an NNPS's representative 1) during construction, 2) until final payment is due, and 3) with the NNPS's concurrence, from time to time during the one-year warranty period for correction of Work. The Engineer will have authority to act on behalf of NNPS only to the extent provided in the Contract Documents, unless otherwise modified in writing by the NNPS Purchasing Agent.
- K.** The Engineer will be responsible for the interpretation of the project specifications. The Engineer will, after consultation with the NNPS and within reasonable time, render such interpretations as may be necessary for the proper execution or progress of the work. The Engineer's decisions in such matter shall be final.
- L.** As needed and appropriate, Engineer will visit the work site(s) to ascertain the state of the general contractor's operations; to become generally familiar with and to keep NNPS informed about the progress and quality of the portion of the Work completed; to endeavor to guard NNPS against defects and deficiencies in the Work; and to determine, in general, if the Work is being performed in a manner indicating that the work, when fully completed, will be in accordance with the Contract Documents. However, the Engineer will not be required to make exhaustive on-site inspections to check the quality or quantity of the work.
- M.** The Engineer will have authority to reject work that does not conform to the contract specifications. Whenever the Engineer considers it necessary or advisable, the Engineer will have authority to require inspection or testing of the work, whether or not such work is fabricated, installed or completed.
- N.** The Engineer shall receive, coordinate, evaluate, and process all Request for Information (RFIs) and Change Order proposals, in accordance with the terms of this contract. NN. Payment by Electronic Funds Transfer (EFT)

(a) Method of payment.

(1) All payments by Newport News Public Schools (NNPS) under this contract shall be made by electronic funds transfer (EFT) except as provided in paragraph (a)(2) of this clause. As used in this clause, the term "EFT" refers to the funds transfer and may also include the payment information transfer.

(2) In the event NNPS is unable to release one or more payments by EFT, the Contractor agrees to either—

- (i) Accept payment by check or some other mutually agreeable method of payment; or
- (ii) Request NNPS to extend payment due dates until such time NNPS makes payment by EFT (but see paragraph (d) of this clause).

(b) Mandatory submission of Contractor's EFT information.

The Contractor shall provide this information directly to the NNPS Accounting Department (hereafter referred to as “Accounting”) no later than 15 days prior to submission of the first request for payment. In the event that the EFT information changes, the Contractor shall be responsible for providing the updated information to the Accounting.
- (2) If the Contractor provides EFT information applicable to multiple contracts, the Contractor shall specifically state the applicability of this EFT information in terms acceptable to Accounting.
- (c) *Mechanisms for EFT payment.* NNPS may make payment by EFT through the Automated Clearing House (ACH) network, subject to the rules of the National Automated Clearing House Association

- (1) The NNPS is not required to make any payment under this contract until after receipt, by Accounting, of the correct EFT payment information from the Contractor. Until receipt of the correct EFT information, any invoice or contract financing request shall be deemed not to be a proper invoice for the purpose of prompt payment under this contract.

However, the Contractor may request that no further payments be made until the updated EFT information is implemented by Accounting. If such suspension would result in a late payment under the prompt payment terms of this contract, the Contractor’s request for suspension shall extend the due date for payment by the number of days of the suspension.
- (e) Liability for uncompleted or erroneous transfers.
- (1) If an uncompleted or erroneous transfer occurs because NNPS used the Contractor’s EFT information incorrectly, NNPS remains responsible for—
- (i) Making a correct payment;
 - (ii) Paying any prompt payment penalty due; and
 - (iii) Recovering any erroneously directed funds.

- (f) *EFT and prompt payment.* A payment shall be deemed to have been made in a timely manner in accordance with the prompt payment terms of this contract if, in the EFT payment transaction instruction released to the Federal Reserve System, the date specified for settlement of the payment is on or before the prompt payment due date, provided the specified payment date is a valid date under the rules of the Federal Reserve System.

In all respects, the requirements of this clause shall apply to the assignee as if it were the Contractor. EFT information that shows the ultimate recipient of the transfer to be other than the Contractor, in the absence of a proper assignment of claims acceptable to NNPS, is incorrect EFT information within the meaning of paragraph (d) of this clause.
- (h) *Liability for change of EFT information by financial agent.* NNPS is not liable for errors resulting from changes to

EFT information provided by the Contractor's financial agent.

(i) *Payment information.* Accounting shall forward to the Contractor available payment information that is suitable for transmission as of the date of release of the EFT instruction to the Federal Reserve System. NNPS may request the Contractor to designate a desired format and method(s) for delivery of payment information from a list of formats and methods Accounting is capable of executing. However, NNPS does not guarantee that any particular format or method of delivery is available and retains the latitude to use the format and delivery method most convenient to NNPS. If NNPS makes payment by check in accordance with paragraph (a) of this clause, NNPS shall mail the payment information to the remittance address in the contract.

(j) *EFT information.* The Contractor shall provide the following information to Accounting. The Contractor may supply this data for this or multiple contracts (see paragraph (b) of this clause).
